Situation Overview

On the night of November 3, 2023, a 6.4 magnitude earthquake struck the Karnali Province of Jajarkot and Rukum West district, with its epicenter located in Ramidanda, Jajarkot district, at 11:47 pm. Following the initial earthquake, numerous aftershocks occurred, causing fear among the local population. The ongoing aftershocks have compelled residents to evacuate their homes and seek to stay in open areas. A total of 18 local governments are affected where Jajarkot and Rukum West are severely affected in terms of human casualties, and damage to houses in Karnali Province.

				Number of Patients Under Treatment	
Total Death	Total Injured	Total Rescued	Under Treatment	Province Hospital Surkhet	Spinal Rehabilitation Center (Kavrepalanchok)
154	934	96	2	1	1

District-wise Details of casualties

District	Number of Deaths						Total		Total Injured	Rescue/Refer
	Under 5		Under 18		Above 18					
	Female	Male	Female	Male	Female	Male	Female	Male

Community based surveillance orientation for FCHVs

Sub cluster	(Key activities performed)
Reproductive Health	Targeting pregnant and post-partum women, two nutritional packets of 3 kg each were distributed to 14,286 people with the support of WFP.
	IEC materials regarding hygiene and reproductive health were distributed in eight affected municipalities of Jajarkot and Rukum West districts.
	RH Kits have been distributed to birthing centres in the affected areas.
	Hygiene Kits distributed to pregnant mothers.
	Birthing centres are provided with essential obstetric drugs and quality equipment.
	Warm clothes were distributed to the pregnant mother and new-borns.
Child Health and Nutritional Support	Ensuring regular vaccination services provided by health institutions.
	Nutritious food items were distributed to the population of risk groups such as pregnant, pregnant mother, children aged 6-23 months.
	Ensuring the availability of essential medicines related to child health at the district and local levels.
Mental Health and NCDs	IEC materials regarding mental health were distributed in eight affected municipalities of Jajarkot and Rukum West districts.
	School teachers and health workers were provided Psychological First Aid, Primary Psychological Support (PSS) training and mobilized to provide PFA or PSS services to the needy people by teachers and by health workers.
	In coordination with the local level, the availability of medicines that people with chronic diseases are taking regularly and medical adherence are ensured.
Disease Surveillance & Control	Orientation on Community based surveillance for FCHVs and health facility staff of municipalities and rural municipalities of Jajarkot and Rukum West is initiated. The program comprises the components of event-based surveillance relative to FCHVs along with the orientation to RRTs and national surveillance system.
	Active Syndromic Surveillance is being continued by the WHO in coordination with the relevant local level health coordinators in the local levels of Jajarkot- Kushe, Nalgad, Bheri, Barekot, Junichande, Chedagad, Shivalaya and Rukum West local levels- Athabiscot, Chaurjahari, Sanibheri.
	To increase health awareness after the disaster, IEC materials regarding sanitation, hand hygiene and awareness related to diarrhoea have been distributed to municipalities and rural municipalities.
	RDT Test kits have been sent to District Hospital, Jajarkot from Province Health Logistics Management Centre to support and strengthen the testing capacity of earthquake affected areas.
Rehabilitation	Two trained physiotherapists were assigned to provide for the needy people in the affected areas.
	The availability of rehabilitation services and assistive devices in earthquake affected health facilities is ongoing.
	In support of EDCD a temporary rehabilitation facility will be set up with physiotherapy service and assistive devices in Bheri, Nalgad and Aathbiskot Municipalities.

Health & Nutrition Cluster Decision made through PHSD meeting on 2080-08-27 at 10:30 AM

It was decided to deploy teams for measles, rubella, and typhoid vaccination campaigns in earthquake-affected districts (Rukum West, Jajarkot) and less-affected districts (Surkhet, Dailekh, Salyan, Jumla, Kalikot).

It was decided to approve the case management protocol and conduct virtual orientation.

Information and schedule of MR campaign was shared in the cluster meeting.

It was decided to facilitate establishment of temporary rehabilitation facilities in Barekot Basic Hospital, Barekot, Gharanga Health Post, Kuse and Sanobheri Rural Municipality Hospital, Sanobheri by EDCD with support from WHO Nepal.

It was decided to prepare template for verbal Autopsy of post-earthquake mortality residing in temporary settlement.

It was decided to dispatch RDT kits from PHLMC to district and distribute to municipalities for the identification of vector-borne diseases.
