Health & Nutrition Cluster Decision made through PHSD Meeting on 2080-7-29 at 10:30 AM

1.	Upon the request from the District Health Offices of Jajarkot and Rukum West, the Provincial Health Service Directorate has resolved to formally request the allocation of sanctioned human resources for Jajarkot District Hospital and Rukum West District Hospital. This includes 1 Health Assistant for each hospital, as well as professionals with qualifications in MBBS/MdGP/Surgeon/Pediatrician. The request for these resources will be directed to the Ministry of Social Development.
2.	To mitigate potential health concerns in earthquake-affected municipalities, a decision was made to organize and set up integrated health camps and conduct health checkups specifically targeting citizens aged 55 and above.
3.	Continue coordination for strengthening activities of the Health, WASH, Shelter, and Protection cluster in the earthquake-affected areas.
4.	To seek Rapid Diagnostics Kits for the testing of potential cases of Dengue, Cholera, Scrub Typhus, and other diseases, a request is being made from PHSD to PHLMC.
5.	To minimize duplication and address potential service gaps, health camps organized by both governmental and non-governmental entities in earthquake-affected regions should be integrated into a unified implementation plan following coordination with the Health Service Directorate.

Needs

1.	Human resources, specialist doctors (MDGP and Surgeon) in Rukum West, and Specialist doctors and paramedics in Jajarkot district
2.	Diagnostics kits for cholera, dengue, and scrub typhus
3.	Dedicated human resources for continued surveillance of affected communities

Major Activities Update:

- Implementation of the Provincial Multi Hazard Contingency Plan.
- Provincial Incident Command system activated on 18th Kartik, 2080. A one-door policy was applied.
- Health and nutrition cluster meetings are conducted every day. A total of 14 cluster meeting has been conducted to date.
- Activation of RRT at local, district and provincial levels.
- 7 teams were formed and deployed to 7 affected Palikas, consisting of staff from PHSD and external development partners for situation assessment, health promotion, and preventive activities, providing psychosocial counseling, and identifying gaps and challenges.
- Mapping of health facilities damaged by the earthquake and identification of functional and non-functional types of services being provided through affected HFs.
- Inter-cluster coordination meeting with MoHP, EDCD, FWD, Curative Division, and other stakeholders. The decisions were made to focus on WASH, nutrition, MHPSS, and vaccination.
- Meeting with the WASH cluster and the decision made to speed up water quality testing and setting up of temporary latrines/construction of toilets and distribution of health kits.
- External development partners are working for relief, medical management, and WASH-related activities in the affected areas.
- On November 12, 2023, 2 medical officers from EDCD deployed at Bheri Municipality and Nalgad Municipality in Jajarkot district to provide health service, and the team from WHO deployed as a mobile team for active syndromic surveillance at the 10 local level of Jajarkot and Rukum District.
- Health worker mapping was done, and 25 EMTs of doctors and paramedics were deployed in the affected areas from within and outside the province. Delivery of necessary rescue and relief materials is ongoing.
- A radio jingle has been created to raise post-disaster awareness for the Jajarkot and Rukum West earthquake.
- A representative from PHSD visited Jajarkot and Rukum West and had a coordination meeting with the Health Service Manager of Jajarkot and Rukum West districts regarding strengthening Active Syndromic Surveillance in the local levels and establishing two ways of communication between the local and the district level.
