## Health & Nutrition Cluster Decision made through PHSD Meeting on 2080-08-05 at 10:30 AM

1	It was decided to request PPHL and PHMLC to be preparedness for readiness action including diagnostic kits and emergency medicine for possible outbreaks.
2	It was decided to prepare a list of the activities to be done based on the priority of the future program by sub-cluster which was decided in previous HSD meeting.

## Needs

1.	Continue monitoring and follow-up regarding regular essential health services.
2.	Diagnostic kits and transport media for cholera, dengue, scrub typhus and ILI.
3.	Dedicated human resources for continued surveillance of affected communities
4	Targeted messages for health awareness.

## Major Activities Update:

- Implementation of the Provincial Multi Hazard Contingency Plan.
- Provincial Incident Command system activated on 18<sup>th</sup> Kartik, 2080. A one-door policy was applied.
- Health and nutrition cluster meetings are conducted every day. A total of 20 cluster meeting has been conducted to date.
- 7 teams were formed and deployed to 7 affected Palikas, consisting of staff from PHSD and external development partners for situation assessment, health promotion, and preventive activities, providing psychosocial counseling, and identifying gaps and challenges.
- Need assessment of damaged health facilities and strengthening of disease surveillance reporting.
- Conduction of 4 Health Cluster Coordination Meeting on Jajarkot EQ update with MoHP, EDCD, FWD, Curative Division, and other stakeholders.
- Meeting with the WASH cluster and the decision made to speed up water quality testing and setting up of temporary latrines/construction of toilets and distribution of health kits.
- Ongoing relief, medical management, and WASH-related activities in the affected areas by external development partners.
- Team deployed for active syndromic surveillance reported to the HSD and advised to focus on ILI and AGE.
- A radio jingle message on mental health, hand hygiene, sanitation, diarrhea prevention, water purification, child protection, Gender based violence, possible accident, and injuries due to damaged infrastructures has been ongoing to raise post-disaster awareness for the Jajarkot and Rukum West earthquake.
- A representative from PHSD visited Jajarkot and Rukum West and had a coordination meeting with the Health Service Manager of Jajarkot and Rukum West districts regarding strengthening Active Syndromic Surveillance at the local levels and establishing two ways of communication between the local and the district level.
- Drafting of ToR for Public Health Awareness Campaign to be conducted in 8 affected palikas.
