Needs	
1	Continue monitoring and follow-up regarding regular essential health services.
2	Diagnostic kits and transport media for cholera, dengue, scrub typhus and ILI.
3	Dedicated human resources for continued surveillance of affected communities
4	Targeted messages for health awareness.
5	Strengthening the WASH cluster in the earthquake affected area for hygiene promotion and mitigate the water borne disease.

Activation of Provincial Incident Command System/Decisions of the meetings on 2080-7-18 (6:00 AM)	
1.	Mapping of Human Resources (Medical and Paramedics).
2.	Need assessment and gaps identification to be done and request to province from earthquake-affected districts.
3.	Under the leadership of Sr. Health Education Officer Mr. Nava Raj Kandel, Public Health Administrator Mr. Bhanu Bhakta Bashyal, and Dr. Bhoj Raj Bam, PHEOC to be deployed for Information Management and dissemination from PHEOC.
4.	Arrangement of ambulances and vehicle management as needed in coordination with earthquake-affected districts to be managed by the province and districts.

Sub-Cluster	Activities
Reproductive Health	▪ Need assessment and ensure access and quality of essential and emergency obstetric services.
	▪ Reinforce existing functional and temporary setup birthing centers to provide skilled birth attendants and essential obstetric care to regularize ANC to PNC Care.
	▪ Heating system and proper water supply and drainage system for temperature and hygiene maintenance.
	▪ Set up temporary toilets near the temporary BC.
	▪ Ensure the availability of FP commodities and services to prevent unintended pregnancies (Through cap)
	▪ Provide IEC materials on family planning to help individuals make informed choices about their reproductive health.
	▪ Assign the dedicated staff to the affected areas to strengthen the ANC to PNC care.
Child Health and Nutrition Support	▪ Continuity of routine immunization services.
	▪ Assessment of the U5 children missed during second national Vitamin A and Albendazole campaign (Kartik 17, 2080).
	▪ WASH awareness and hygiene kit distribution to the families having U5 children.
	▪ Nutrition assessment among pregnant and lactating women, U5 children as well newborns.
	▪ Provide access to prenatal vitamins and supplements, especially in populations where malnutrition is a concern.
Mental Health and NCD	▪ Offer individual and group counseling sessions to address the emotional stress and anxiety that dependent population may experience during and after the earthquake.
	▪ Maintain confidentiality for women to express their concerns and fears related to pregnancy, childbirth, and caring for a newborn.
	▪ Mapping the status of trained psychosocial counselor and establish health desk for psychosocial counseling through coordination with LLGs, HSO and HFs.
	▪ Ensure the status of medical adherence for NCDs.
Disease Surveillance and Control	▪ Print and distribution of IEC materials for all prevalent diseases.
	▪ HR mobilization for regular disease surveillance and uninterrupted service delivery.
Rehabilitation	▪ Need assessment of disabled population and supply of required health commodities and assistive devices.
	▪ To conduct rehabilitation camps with assistive devices at most affected areas

Limsa Hospital, Barekot Rural Municipality

Ghetma Health Post, Aathbiskot Municipality14, Rukum West

Major Activities Update:

- Implementation of the Provincial Multi Hazard Contingency Plan.
- Provincial Incident Command system activated on 18th Kartik, 2080. A one-door policy was applied.
- Health and nutrition cluster meetings are conducted every day. A total of 21 cluster meeting has been conducted to date.
- 7 teams were formed and deployed to 7 affected Palikas, consisting of staff from PHSD and external development partners for situation assessment, health promotion, and preventive activities, providing psychosocial counseling, and identifying gaps and challenges.
- Need assessment of damaged health facilities and strengthening of disease surveillance reporting.
- Conduction of 4 Health Cluster Coordination Meeting on Jajarkot EQ update with MoHP, EDCD, FWD, Curative Division, and other stakeholders.
- Meeting with the WASH cluster and the decision made to speed up water quality testing and setting up of temporary latrines/construction of toilets and distribution of health kits.
- Ongoing relief, medical management, and WASH-related activities in the affected areas by external development partners.
- Team deployed for active syndromic surveillance reported to the HSD and advised to focus on ILI and AGE.
- A radio jingle message on mental health, hand hygiene, sanitation, diarrhea prevention, water purification, child protection, Gender based violence, possible accident, and injuries due to damaged infrastructures has been ongoing to raise post-disaster awareness for the Jajarkot and Rukum West earthquake.
- A representative from PHSD visited Jajarkot and Rukum West and had a coordination meeting with the Health Service Manager of Jajarkot and Rukum West districts regarding strengthening Active Syndromic Surveillance at the local levels and establishing two ways of communication between the local and the district level.
- ToR has been drafted for Public Health Awareness Campaign to be conducted in 8 affected palikas.
- Health Service Directorate has circulated the letter requesting the information of diarrheal cases in the affected local level of Jajarkot district.
- A collaborative team comprising members from HSD, the Provincial Planning Commission, and UNICEF has been dispatched to the impacted region to enhance and restore essential health and nutrition services. The team aims to assess the nutritional status of children under 5 years old, pregnant women, lactating mothers, and adolescent girls. Additionally, they are committed to provide assistance in managing diarrhea responses in Nalgad Municipality, Jajarkot.
- A joint team from WHO, PPHL, HSD, Federal Water Supply and Sewerage Management has been deployed to Bheri, Nalgad and Aathbiskot to observe essential health service delivery and water quality surveillance.
