Health & Nutrition Cluster Decision made through PHSD Meeting on 2080-08-02 at 10:30 AM

1	Sub-committee formed on 17th November 2023 to respond on possible health issues that may occur in the earthquake affected areas will update the related subject matter and situation on 19th November.
2	It was decided to celebrate World AMR Awareness Week from 18 to 24 November 2023 by conducting various public awareness activities with the theme of “Preventing Antimicrobial Resistance Together” along with earthquake response activities.

Needs

1.	Continue monitoring and follow-up regarding regular essential health services.
2.	Diagnostic kits for cholera, dengue, and scrub typhus
3.	Dedicated human resources for continued surveillance of affected communities

Major Activities Update:

- Implementation of the Provincial Multi Hazard Contingency Plan.
- Provincial Incident Command system activated on 18th Kartik, 2080. A one-door policy was applied.
- Health and nutrition cluster meetings are conducted every day. A total of 14 cluster meeting has been conducted to date.
- 7 teams were formed and deployed to 7 affected Palikas, consisting of staff from PHSD and external development partners for situation assessment, health promotion, and preventive activities, providing psychosocial counseling, and identifying gaps and challenges.
- Mapping of partially and fully damaged health facilities and update of functionality status.
- Inter-cluster coordination meeting with MoHP, EDCD, FWD, Curative Division, and other stakeholders. The decisions were made to focus on WASH, nutrition, MHPSS, and vaccination.
- Meeting with the WASH cluster and the decision made to speed up water quality testing and setting up of temporary latrines/construction of toilets and distribution of health kits.
- Ongoing relief, medical management, and WASH-related activities in the affected areas by external development partners.
- On November 12, 2023, 2 medical officers from EDCD deployed at Bheri Municipality and Nalgad Municipality in Jajarkot district to provide health service, and the team from WHO deployed as a mobile team for active syndromic surveillance at the 10 local level of Jajarkot and Rukum District.
- Health worker mapping was done, and 25 EMTs of doctors and paramedics were deployed in the affected areas from within and outside the province. Delivery of necessary rescue and relief materials is ongoing.
- A radio jingle has been created to raise post-disaster awareness for the Jajarkot and Rukum West earthquake.
- A representative from PHSD visited Jajarkot and Rukum West and had a coordination meeting with the Health Service Manager of Jajarkot and Rukum West districts regarding strengthening Active Syndromic Surveillance at the local levels and establishing two ways of communication between the local and the district level.
- MHPSS response and recovery plan will be drafted and incorporated into the multi-hazard Health and Nutrition Contingency Plan.
